Subject: [EXTERNAL] Byhalia Pipeline

Hello-

I am writing you to please urge you to reconsider the Byhalia Pipeline and its proposed path through the Boxtown Neighborhood of South Memphis.

There is surmounting evidence that the citizens of this neighborhood were not considered nor was their health, sense of well being, or their home value.

I think any Memphian would agree with me that they do not want a pipeline running through their neighborhood, for numerous reasons. It is appalling to me that we would just disregard our neighbors health and happiness for profit. To add on to that, I absolutely am against any additional pipeline being added this close to the Mississippi River and the Mississippi Delta. Should anything happen to the pipeline, it would be absolutely detrimental to the citizens of Boxtown, Memphis, and North Mississippi, let alone the horrendous affects that it would have on the agriculture and numerous other industries down river.

Please stop this while you still have time.

Best,
